

TECHNICAL DATA SHEET

Product Name	Colouring Agent Black
Application	Body Coloring for DAP Fertilizer.
Appearance	Homogeneous free flowing liquid
Viscosity	In the gravity flow range
Density	1.35 ± 0.1 Kg/Ltr.
Recommended Dosage Point	At the Preneutralizer or at any other convenient location
Composition	Synergistic blend of Bio-degradable organic ingredients which are acid compatible and give rise to black colour in-process without any way interfering with DAP fertilizer.
Compatibility with DAP Fertilizer	The formulation is compatible and does not in any way interfere with the physico-chemical properties of the fertilizer. On application it spreads uniformly in the body of DAP fertilizer and is Bio-degradable and eco-friendly.
Safety & Handling	<i>Normal procedures of handling any Plant liquid can be adopted.</i>
Flammability	Non-Flammable
General Instructions	The product is non-toxic, non-hazardous & if touched can be washed off with soap and water
